Dear Friends of the Robert Schalkenbach Foundation:

We would like to offer you some books for free!

For a limited time and while supplies last, we are offering select titles to our friends, patrons, and supporters as part of an excess inventory reduction program. Please browse through our offerings — perhaps there are a few books that interest you personally, some that might make an excellent gift for a friend or relative, or others that would be a nice addition to the collection of a local library, school, or community college.

THE AMERICAN JOURNAL OF ECONOMICS AND SOCIOLOGY

We have a number of sets spanning more than twelve years (2000-2012) of the American Journal of Economics and Sociology (AJES). Each year there are five issues: three feature an assortment of social science articles, while two are “special issues” on particular themes. Some of the topics in recent years include:

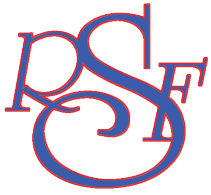

- *Henry George: Political Ideologue, Social Philosopher, and Economic Theorist*
- democracy and human development
- network theory in economics
- the irony of “value-free” advocacy of laissez-faire economics
- the behavior of adolescents
- the Henry George Theorem and optimal city size
- the economics of gambling (special issue)
- the relationship of economics and religion
- eugenics in the progressive era
- land speculation and the “winner’s curse”
- economic development and political instability
- *After the Crash: Designing a Depression-Free Economy* by Mason Gaffney

Please note: Since we cannot guarantee a complete set to everyone who requests it, we will prioritize gifts of complete sets to libraries and schools.

AJES COLLECTIONS EDITED BY THE LISSNERS

Over the years, Will and Dorothy Lissner edited a vast number articles from AJES and collected them in special editions. These include some of the best of the first fifty years of the AJES. (These books are available in large quantities, particularly suitable for class sets.)

- *George and the Scholars*
- *George and Democracy in the British Isles.*
- *George and Ohio’s Civic Revival* (articles by Robert Bremner)
- *Henry George and Europe* (articles by Michael Silagi)
