# MANAGEMENT OF LAND AND SEA RESOURCES - what's new?

## THE KELVIN CONFERENCE CENTRE, UNIVERSITY OF GLASGOW, SCOTLAND 7 JULY – 10 JULY 2013

The Commonwealth Association of Surveying and Land Economy (CASLE) invite you to a conference hosted by the University of Glasgow's Geomatics Group.

**Who should attend?** Land, Quantity Surveying and Marine practitioners, professionals, academics and students covering from communal title issues such as Scotland's Crofting tenure, to the most challenging issues of multiple ownership sites, construction economics and even new extraction issues such as shale fracking. The marine theme should be of keen interest to all marine practitioners, academics and students, including hydrographic and marine environment specialists. Property, valuation and quantity surveying specialists will find the sessions addressing the impact of environmental legislation on the property sector of particular interest.
