**Robert Schalkenbach Foundation**

(RSF) was organized in 1925 as a private operating foundation to promote public awareness of the social philosophy and economic reforms advocated by Henry George, including the “single tax on land values”. To this end, RSF conducts research, holds seminars, and publishes and distributes articles and books, including *Progress and Poverty* (1879), George’s best-selling original classic, as well as a new abridgement using the language of the 21st century. These and other works can be accessed from our online library. We also offer hard copy books for purchase from our online bookstore.

**Henry George** (September 2, 1839 – October 29, 1897) was an American writer, political economist, and social reformer. He was also the most influential proponent of replacing all taxes with a Land Value Tax, which became known around the world as the Single Tax. The “Georgist” philosophy and economic analysis begins with the premise that Land (all natural resources and urban sites), provided by nature and made valuable by society, belongs equally to all humanity, and that each person owns the products of his or her own labor, mental and physical, that is necessarily applied to Land. George’s masterpiece, *Progress and Poverty* (1879), offers a reform program as the remedy for the poverty and economic depressions caused by land monopoly and speculation.

Thirteen years into the 21st century,
American politics is more polarized than ever. Yet both sides agree on one thing: WE MUST CREATE MORE JOBS! Is our political system up to the task? Our task is to dig deeper than buzzwords, to discover the roots of unemployment. Why do land, factories and buildings sit idle, while workers are unemployed and families are losing their homes? Why cannot willing and able workers find a way to earn a decent living?

We’re not coming from the “Right” or the “Left”. Instead, we’re coming from the “Radical Center”, using key insights that modern “econ” ignores but have never been more desperately needed. We offer a way to liberate workers and producers from taxation, create employment opportunities for everyone, and provide adequate revenue for a vibrant public sector that meets the needs of 21st century citizens.

Undeniably, the question of “JOBS” bears on the whole gamut of economic policy choices. The Robert Schalkenbach Foundation has established this website as a clearinghouse for news, discussion and analysis of these most vital economic issues.

A New Model of the Economy
By Brian Hodgkinson
Presenting a radical revision of modern economic theory, this analysis adjusts the entire range of economic thought in relation to the fundamental part played by land, the significance of credit—especially in the banking system—and the crucial impact of the taxation method. Based upon natural law, economic security for all, fair distribution of output, and the opportunity for self-fulfillment, this work highlights important concepts often omitted from current studies.

ISBN: 978-0856832796
Paperback 368 pp
2011 Shepheard-Walwyn
List Price: $30 SPECIAL OFFER: $20

The Fair Tax
Supported by History ... Agreed by Economists ... Feared by the 1%
Edited by Emer Ó Siochrú
The tax regime in Ireland has been very favourable to property owners, but especially to developers who, together with their banks, took maximum advantage. The Fair Tax explains how a second massive transfer of wealth from the 99% to the 1% could happen again. The authors clearly explain the real advantages of a Site Value Tax over a conventional property tax and convincingly show how easy it is to assess and implement.

ISBN: 978-0856832901
Paperback 170 pp
2012 Shepheard-Walwyn

The End of Poverty?
Directed by Philippe Diaz
Produced by Beth Portello
The End of Poverty? is a daring, thought-provoking and timely documentary from Cinema Libre Studio Films and RSF. Poverty is not an accident, and today global poverty has reached new levels because of unfair debt, trade and tax policies. This DVD contains the entire film, as well as special features such as extended interviews with experts and previously unseen footage. Narrated by Martin Sheen.
ISBN: 1595871233
DVD 104 min, 2010 RSF-CLS

Why Global Poverty? + The End of Poverty? DVD
GET THEM BOTH SPECIAL OFFER: $25

Why Global Poverty?
By Clifford W. Cobb and Philippe Diaz
Global poverty did not just happen—it began centuries ago and persists down to our own time. This companion guide to the critically acclaimed documentary film The End of Poverty? helps explain why. With background on the film, a complete transcript, and over seventy interviews with renowned experts, this book is a must-read for anyone who wants to understand and address global economic injustice.
ISBN: 978-0911312942

List Price: $15 SPECIAL OFFER: $12

Crumbling Foundations
By David Smiley
With H. William Batt and Clifford Cobb
Smiley’s visionary proposal would use the economic value from resources for the public good, rather than purely private ends.
ISBN: 978091312959
PB 275 pp, 2010 RSF
List Price: $15 SPECIAL OFFER: $12

Alaska’s Permanent Fund Dividend
Examining its Suitability as a Model
Edited by Karl Widerquist and Michael W. Howard
Discussing the Alaska Permanent Fund (APF) and Permanent Fund Dividend (PFD) as a model both for resource policy and for social policy, contributors explore whether other states, nations, or regions would benefit from an Alaskan-style dividend. This volume looks back at the success of the APF and PFD, and looks forward to see how the Alaska model can be of use in other places and how the model might be altered and improved.
ISBN: 9780230112070
HC 286 pp
2012 Palgrave Macmillan
List Price: $95 SPECIAL OFFER: $65

Exporting the Alaska Model
Adapting the Permanent Fund Dividend for Reform around the World
Edited by Karl Widerquist and Michael W. Howard
Every year, every Alaskan gets paid. They receive a small dividend financed by returns on a fund created from the state’s resource revenues – what the authors have called the ‘Alaska model.’ This timely book examines how the model can be adapted for use elsewhere, even in resource-poor areas in the industrialized and in the industrializing world.
ISBN: 9781137006592
HC 312 pp
2012 Palgrave Macmillan

The Earth Belongs to Everyone
Articles and Essays by Alanna Hartzok
Hartzok shows that earth-rights democracy is an essential ethical basis necessary to secure other economic human rights and to create a world of peace and plenty for all. Successful working examples of the earth-rights approach to public finance are found throughout the book. Recipient of The Radical Middle Award.
ISBN: 9781933567044
PB 368 pp, 2008 The Institute for Economic Democracy
List Price: $20 SPECIAL OFFER: $19
The Economics of Henry George
History’s Rehabilitation of America’s Greatest Early Economist
By Phillip J. Bryson
Henry George was the greatest, most famous and most rejected of early American economists, yet history has seen his rehabilitation at the hand of modern economists who have reviewed and analyzed his work in great detail. While there has been much specialized literature on many specific facets and aspects of George’s work, Bryson’s book provides an overview of George’s economics and of this historic rehabilitation.

ISBN: 9780230115859

$19

The Prosperity Paradox
The Economic Wisdom of Henry George – Rediscovered
Foreword, edited by Dr. Mark Hassed.
Ten short works including, “Scotland and Scotsmen,” and “Land and Taxation.” The chapters are broken up into short sections, making this book an excellent introduction to Henry George.
PB 174 pp, 2000 Chatsworth Village
$16

Two Views of Social Justice
A Catholic/Georgist Dialogue
Edited by Kenneth R. Lord
Sixteen scholars came together at the University of Scranton to examine eight social-justice themes – natural law, human nature, the nature of work, the nineteenth-century papal encyclical Rerum Novarum, causes of war, immigration, development, and neighborhood revitalization. While they sometimes wrangle with each other, their common aspiration is the same: to find solutions to the suffering caused by injustice.
Paperback 240 pp
ISBN: 9781118450048
List Price: $40 SPECIAL OFFER: $20

After the Crash
Designing a Depression-Free Economy
By Mason Gaffney
Edited by Clifford W. Cobb
This collection analyzes in a unique way the causes of the current crash by showing how such events derive from real estate bubbles and their interactions with banks and other lenders.
Gaffney provides a distinctive framework for analyzing macroeconomic issues, which can offer a useful counterpoint to Keynesian, monetarism, rational expectations theory, and general equilibrium analysis.
